

Karmic Justice *-A psychological thriller played out through the centuries*

Karmic Justice, the feature length pilot. Over many lifetimes, Marie and Jean Paul are destined to meet again and again, falling in love, then tormenting each other, repeating the patterns of the past over and over… unless one of them can break the ties that have bound them together in the river of time.

River of Time, TV series based on the feature pilot. In the vein of *The Medium* and *Ghost Whisperer* ,
Marie, with the help of a hypnotist, was able to confront her past life issues and break the bond that had caused her life times of misery. Now Marie becomes a past-life regression therapist to help others deal with the issues that are preventing them completing their soul's journey.
